## FOREWORD

The overall safety strategy of Iveco aims to offer the best technologies for active and passive safety across its entire range of vehicles and, at the same time, to promote initiatives aimed at education, communication and improvements in bus driver behaviour to protect human life on the roads.

Furthermore, Iveco pays special attention to providing rescue crews with targeted information regarding our vehicles and their safety systems so they can be accessed as quickly as possible to any injured people, without exposing themselves to additional danger.

This document contains technical information on vehicles intended for sale within the European Union.

The information provided in the IVECO Rescue Sheets contain data created exclusively for professional rescue operators who are experienced in intervening on vehicles involved in road accidents.

IVECO S.p.A. would ask all rescue operators to plan intervention strategies and take/evaluate decisions using the information provided but also based on their own experience.

This document and all its parts are protected by copyright.

Any use or commercial use requires the prior written consent of IVECO S.p.A., in particular with regards to reproduction, processing, editing, translation, microfilming and storage and/or processing in electronic systems, including databases and online services.

IVECO S.p.A. reserves the right to make any modifications or adjustments to the contents of the IVECO Rescue Sheets at any time.
